

AEON LABS MULTISENSOR

(Z-Wave 4-in-1 Sensor: Motion, Temperature, Humidity, and Light Sensor)

Product Overview:

The Aeon Labs MultiSensor is a battery-powered Z-Wave motion sensor, temperature sensor, humidity sensor and lighting sensor all in one package. The sensor will send radio signals up to 6 associated Z-Wave devices within its own Z-Wave network when the sensor detects IR changes in front of its viewing window.

Indoor/Outdoor functional tolerances allow the Aeon Labs MultiSensor to function under weatherized conditions. Various sensitivity levels can be configured to avoid unintentional triggering from small animals such as cats and dogs.

The Aeon Labs MultiSensor comes with a swivel arm to mount on walls and a flat back-plate to mount against ceilings for 360 degree room coverage.

Product Highlights:

- 4-in-1 Sensor: Motion, Temperature, Humidity, and Lighting Sensor in one package
- Small form factor and aesthetical design
- IP43 – Indoor/Outdoor capable
- Can be mounted flat on ceilings (360 degree of detection) or via swivel arm on a wall
- Long battery life – 6 month battery life with 3 AAA batteries
- Can be powered via 5V DC instead of with batteries
- Adjustable sensitivity levels to ignore small pets and animals
- Low battery detection (Z-Wave Battery CC)
- Latest Z-Wave protocol and commands
- Optimized antenna range - 300ft Z-Wave RF range (outdoor), 80+ ft (indoor)
- Certified/Available for USA, EU and Australian markets (FCC, CE, C-TICK, ROHS)
